Use the arrow keys to move left or right.

ROMANTIC DRIVE SIMULATOR

-Based off of old school 3d classic racing games

-Im hoping to be able to change the background which would really be the sky

- The mouse were you draw and effects would sprite out of the mouse

-Hopefully you could change the couples in the car, which would have different car designs.

BRUSH SIZE

COLOR

BACKGROUND

TRACING PRACTICE

-utilizes canvas to make the mouse cursor into a brush

-Hoping to change the background to add variety in what you could trace

- Hopefully be able to download the image you traced or an image you want to practice

-
